Subject: Deny the NC 401 Certification

Gov Cooper, Mr Regan:

I am asking you to deny Duke Energy and Dominion Energy the permits they need to build the fracked gas pipeline across NC.

This is a bad idea economically, environmentally and in terms of social justice for the people who reside in the eastern portions of NC.

It is time for Duke, especially, to wake up to the reality of climate change and to focus on renewable energies as fuel for electricity generation. Duke is huge. Other power companies will follow their. Urge them to lead!

Take care of our future!

Thank you,
Sandra Bromble
Weaverville, NC
